## **Tables:**

<b>Application.Cities</b> (37,940 rows) .....	1
<i>Cities that are part of any address (including geographic location)</i>	
<b>Application.Cities_Archive</b> (28 rows) .....	3
<b>Application.Countries</b> (190 rows) .....	4
<i>Countries that contain the states or provinces (including geographic boundaries)</i>	
<b>Application.Countries_Archive</b> (36 rows) .....	5
<b>Application.DeliveryMethods</b> (10 rows) .....	6
<i>Ways that stock items can be delivered (ie: truck/van, post, pickup, courier, etc.)</i>	
<b>Application.DeliveryMethods_Archive</b> (1 row) .....	7
<b>Application.PaymentMethods</b> (4 rows) .....	8
<i>Ways that payments can be made (ie: cash, check, EFT, etc.)</i>	
<b>Application.PaymentMethods_Archive</b> (1 row) .....	9
<b>Application.People</b> (1,111 rows) .....	10
<i>People known to the application (staff, customer contacts, supplier contacts)</i>	
<b>Application.People_Archive</b> (2,072 rows) .....	14
<b>Application.StateProvinces</b> (53 rows) .....	15
<i>States or provinces that contain cities (including geographic location)</i>	
<b>Application.StateProvinces_Archive</b> (104 rows) .....	17
<b>Application.SystemParameters</b> (1 row) .....	18
<i>Any configurable parameters for the whole system</i>	
<b>Application.TransactionTypes</b> (13 rows) .....	19
<i>Types of customer, supplier, or stock transactions (ie: invoice, credit note, etc.)</i>	
<b>Application.TransactionTypes_Archive</b> (1 row) .....	20
<b>Purchasing.PurchaseOrderLines</b> (8,367 rows) .....	21
<i>Detail lines from supplier purchase orders</i>	
<b>Purchasing.PurchaseOrders</b> (2,074 rows) .....	23
<i>Details of supplier purchase orders</i>	
<b>Purchasing.SupplierCategories</b> (9 rows) .....	25
<i>Categories for suppliers (ie novelties, toys, clothing, packaging, etc.)</i>	
<b>Purchasing.SupplierCategories_Archive</b> (1 row) .....	26
<b>Purchasing.Suppliers</b> (13 rows) .....	27
<i>Main entity table for suppliers (organizations)</i>	
<b>Purchasing.Suppliers_Archive</b> (13 rows) .....	30
<b>Purchasing.SupplierTransactions</b> (2,438 rows) .....	31
<i>All financial transactions that are supplier-related</i>	

<b>Sales.BuyingGroups</b> (2 rows) .....	33
Customer organizations can be part of groups that exert greater buying power	
<b>Sales.BuyingGroups_Archive</b> (0 rows) .....	34
<b>Sales.CustomerCategories</b> (8 rows) .....	35
Categories for customers (ie restaurants, cafes, supermarkets, etc.)	
<b>Sales.CustomerCategories_Archive</b> (1 row) .....	36
<b>Sales.Customers</b> (663 rows) .....	37
Main entity tables for customers (organizations or individuals)	
<b>Sales.Customers_Archive</b> (51 rows) .....	41
<b>Sales.CustomerTransactions</b> (97,147 rows) .....	42
All financial transactions that are customer-related	
<b>Sales.InvoiceLines</b> (228,265 rows) .....	44
Detail lines from customer invoices	
<b>Sales.Invoices</b> (70,510 rows) .....	46
Details of customer invoices	
<b>Sales.OrderLines</b> (231,412 rows) .....	49
Detail lines from customer orders	
<b>Sales.Orders</b> (73,595 rows) .....	51
Detail of customer orders	
<b>Sales.SpecialDeals</b> (2 rows) .....	53
Special pricing (can include fixed prices, discount \$ or discount %)	
<b>Warehouse.ColdRoomTemperatures</b> (4 rows) .....	55
<b>Warehouse.ColdRoomTemperatures_Archive</b> (3,654,736 rows) .....	56
<b>Warehouse.Colors</b> (36 rows) .....	57
Stock items can (optionally) have colors	
<b>Warehouse.Colors_Archive</b> (1 row) .....	58
<b>Warehouse.PackageTypes</b> (14 rows) .....	59
Ways that stock items can be packaged (ie: each, box, carton, pallet, kg, etc.)	
<b>Warehouse.PackageTypes_Archive</b> (0 rows) .....	60
<b>Warehouse.StockGroups</b> (10 rows) .....	61
Groups for categorizing stock items (ie: novelties, toys, edible novelties, etc.)	
<b>Warehouse.StockGroups_Archive</b> (1 row) .....	62
<b>Warehouse.StockItemHoldings</b> (227 rows) .....	63
Non-temporal attributes for stock items	
<b>Warehouse.StockItems</b> (227 rows) .....	64
Main entity table for stock items	
<b>Warehouse.StockItems_Archive</b> (444 rows) .....	67

<b>Warehouse.StockItemStockGroups</b> (442 rows) .....	68
<i>Which stock items are in which stock groups</i>	
<b>Warehouse.StockItemTransactions</b> (236,667 rows) .....	69
<i>Transactions covering all movements of all stock items</i>	
<b>Warehouse.VehicleTemperatures</b> (65,998 rows) .....	71
